### AFFAIRS OF THE DISTRICT

#### Applications to Suspend More Campaign Banners Granted.

One Is Democratic and the Other Republican—Of the Former There Are Now Four, While the Latter Is the First to Be Raised by the Adherents of the Administration Party.

Two applications for permission to suspend campaign banners across the streets of Washington were today granted by the Commissioners. The applications are from the Democratic Central Committee for permission to suspend a Bryan and Stevenson banner from the Metropolitan Hotel to the Elgood store building, across Pennsylvania Avenue, between Sixth and Seventh Streets, and from the Active Maryland Republican Association to hang a banner across F Street, between Eleventh and Twelfth Streets, northwest.

The raising of the banner of the Democratic Central Committee will make the fourth Democratic banner that has been suspended in the city during the present campaign. The other Democratic banners are The Times Banner, suspended across Tenth Street; the banner of the District of Columbia Democratic Association at Pennsylvania Avenue near Ninth Street, and the Bryan and Stevenson emblem of the Georgetown Democrats. The banner of the Maryland Republicans for which the present permit is granted, will be the first banner of the Republicans to be raised in this city.

The Commissioners have issued the following notice to J. K. Murphy, the contractor, who has been constructing the sewer across the Capitol Park, directing him to replace the drain pipes, etc.

"You are directed to begin within five days after receipt of this communication the work of restoring drain pipes, electric conduits, and surface conditions in the Capitol grounds where such pipes, etc., were disturbed by the construction of sewer; the work to be done with a sufficient force to insure its completion within a reasonable time.

"In the event of your failure to comply with this notice, the work will be done by the district, and the cost thereof charged to your account."

The Commissioners have directed that the north and south alley in square 1183 be repaved at a grade to conform with the grades of Twenty-ninth and Thirtieth streets; at an estimated cost of \$150, chargeable to the current appropriation for repairs to streets, and that catch basins be constructed as follows, at an estimated cost of \$275, chargeable to the current appropriation for main and pipe sewers:

South side of I Street southwest, just east of First Street.

Southeast corner of Half and M Streets southwest.

Southeast and southwest corners of Half and H Streets southwest.

The Commissioners have ordered that a sewer be constructed along I Street southwest, between Eighth and Ninth Streets, at an estimated cost of \$107, chargeable to the current appropriation for main and pipe sewers.
